

Text Editors – Solutions

Lab 1: Using nano

1. Start **nano**.
 2. Make a new file, say **myfile.txt**.
 3. Open the file, **myfile.txt**.
 4. Add your name in the first line of the file.
 5. Add the date in the last line of the file.
 6. Close the file.
-

Lab 2: Using gedit

1. Start **gedit**.
 2. Open the file, **myfile.txt** (This is the file you have created using nano in previous Lab)
 3. Add your address in the second line of the file.
 4. Add the name of your city in the last line of the file.
 5. Close the file.
